THEATRE OF THE SEA

Inspection

Type: ROUTINE INSPECTION

Date: JUL-30-2003

No noncompliances identified during this inspection.

Previously identified non-compliances which have been corrected:

3.103 Perimeter fence.

Plastic mesh has been installed to reinforce the highway side perimeter fence. Access by unwanted animals should now be sufficiently restricted.

3.107

Sanitation.

The facility has constructed a housing area specifically for their resident cats. No cats were observed near or in any regulated animal areas. Additionally, a barrier has been added to the fencing in the sea lion area to prevent access by unwanted animals. This same barrier has also been added to the perimeter fence on the old road side of the facility to discourage entry by animals.

Current animal inventory: 8 Tursiops, 4 California Sea lions.
